

YUSUF KAAAN UTKAN

Computer Science Student

+1 (847) 366-0130 | yutkan@depaul.edu | Streamwood, Illinois | yusufthecoder02.github.io/Portfolio-Website/ | github.com/Yusufthecoder02

EDUCATION

DePaul University

Bachelor of Science in Computer Science

Software Development Concentration

Expected Graduation: June 2029

Relevant Coursework:

Web Development • Python Programming • Discrete Mathematics • Calculus I

CERTIFICATIONS

IELTS Academic (Overall Band 7.0 | CEFR C1)

British Council • IDP IELTS • Cambridge English

Issued: February 2025

Verified English language proficiency (CEFR C1). Official results can be verified through the IELTS Results Verification Service using my Test Report Form Number: **24TR501900UTKY150A**

Section Scores

Listening: 7.5

Reading: 7.0

Writing: 6.5

Speaking: 6.5

PROJECTS

Personal Portfolio Website | HTML, CSS, JavaScript

- Designed and developed a personal portfolio website to showcase my skills, projects, education, and resume.
- Built multiple pages including About, Skills, Projects, and Resume with a modern and clean UI.
- Implemented responsive design improvements for better mobile experience (in progress).
- Deployed the website using GitHub Pages and maintained 50+ Git commits during development.

JavaScript Calculator | HTML, CSS, JavaScript

- Built a fully functional calculator that performs basic arithmetic operations.
- Implemented JavaScript logic, DOM manipulation, and event handling for user input and output.
- Focused on clean code structure and user-friendly design.

Pizza Ordering Application | HTML, CSS, JavaScript

- Developed an interactive pizza ordering application for a university project.
- Designed and built the user interface using HTML and CSS.
- Allowed users to select menu items, customize their order, and calculate the total price dynamically.
- Practiced conditional logic, functions, arrays, DOM manipulation, and input validation.

ADDITIONAL INFORMATION

Languages

- Turkish: Native
- English: Professional Working Proficiency (IELTS Academic 7.0, CEFR C1)

Career Goal

Seeking Software Engineering internship opportunities to apply and grow my skills, contribute to real-world projects, and continue learning as a developer.

Interests

- Full Stack Development (Frontend + Backend)
- Web Development
- Problem Solving
- AI & Machine Learning
- Building projects and learning new technologies
